

LearningExpress's Air Traffic Selection and Training (AT-SAT) Practices

Those who have what it takes to become Air Traffic Controllers will discover an important and satisfying career with excellent pay and benefits. And the job outlook is good: the U.S. Department of Labor expects the number of Air Traffic Controller jobs to increase in the coming years.

To become an air traffic controller for the FAA, you must graduate from an approved Air Traffic Collegiate Training Initiative (AT-CTI) program. Prior to graduation, you will be required to take a pre-employment test called the Air Traffic Selection and Training (AT-SAT).

The **LearningExpress AT-SAT Practices** offer Air Traffic Controller candidates the essential, authentic practice they need to perform their best on every section of this most important test.

We offer online practices based on the content of the seven official cognitive AT-SAT tests: Analogies, Angles, Applied Math, Scan, Dial Reading, Letter Factory, and Air Traffic Scenarios.

The **ATC: Analogies Practice** offers:

- **100 multiple-choice** questions designed to **familiarize examinees with the format and content** of the official AT-SAT Analogies test
- **Instant online scoring** and **detailed answer explanations**

The **ATC: Angles Practice** offers:

- **100 multiple-choice** questions designed to **familiarize examinees with the format and content** of the official AT-SAT Angles test
- **Instant online scoring** and **detailed answer explanations**

The **ATC: Applied Math Practice** offers:

- **100 multiple-choice** questions designed to **familiarize examinees with the format and content** of the official AT-SAT Applied Math test
- **Instant online scoring** and **detailed answer explanations**

The **ATC: Scan Practice** offers:

- **25 multiple-answer** questions designed to **familiarize examinees with the content** of the official AT-SAT Scan test
- **Instant online scoring** and **detailed answer explanations**

The **ATC: Dial Reading Practice** offers:

- **100 multiple-choice** questions designed to **familiarize examinees with the format and content** of the official AT-SAT Dial Reading test
- **Instant online scoring** and **detailed answer explanations**

The **ATC: Letter Factory Practice** offers:

- **100 multiple-choice** questions designed to **familiarize examinees with the format and content** of the official AT-SAT Letter Factory test
- **Instant online scoring** and **detailed answer explanations**

The **ATC: Air Traffic Scenarios Practice** offers:

- **100 multiple-choice** questions designed to **familiarize examinees with the format and content** of the official Air Traffic Scenarios test
- **Instant online scoring** and **detailed answer explanations**

Quick Facts

According to the Bureau of Labor Statistics:

- The average salary for an air traffic controller is around \$122,000 per year.
- Depending on length of service, air traffic controllers receive 13 to 26 days of paid vacation and 13 days of paid sick leave each year, in addition to life insurance and health benefits.
- Air traffic controllers held about 25,000 jobs in 2006.
- The vast majority of air traffic controllers are employed by the FAA.
