

LearningExpress's Electrician's Licensing Exam Practices

Whether you are just starting out in the electrical trade or are a seasoned veteran looking for career enhancement, successful completion of your local journeyman or master licensing exam is an important career step. The goal of both exams is two-pronged: (1) to test knowledge and (2) to determine whether applicants can apply electrical codes in real-world situations.

The **LearningExpress Electrician's Exam Practices** offer journeyman and master candidates the essential, authentic practice they need to perform their best on either the Journeyman or Master licensing exams.

We offer two online practices that test NEC code knowledge as well as the essential trade theory that is tested on *every* licensing exam, regardless of state or municipality.

Each Electrician's Licensing Exam Practice offers:

- **70+ multiple-choice** questions designed to **familiarize examinees with the content** of their local Journeyman or Master Electrician licensing exam
- **Instant online scoring** and **detailed answer explanations**

The following Electrician's Licensing Exam Practices are now available:
